Sprouts experimental design worksheet

Team members:

Team Name:

1. What is your research question?

2. What is your prediction? What previous work or knowledge supports this prediction? Attach citations and abstracts of references.

3. How will you test your hypothesis? i.e. what is your experimental design?

4. What data will you collect?

5. How will you analyze your data and decide to reject or support your hypothesis?

List all materials you will need on the reverse side of this form.
